Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet.

If inhaled

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet.

If on skin

Rinse skin with water or shower. Remove soiled clothing. Wash before reuse. In the event of repeated or prolonged skin contact, use protective creams.

If in eyes

Do not rub your eyes, as this may cause further mechanical damage to the eyes. Rinse eyes immediately with a stream of running water, keeping the eyelids open (using force if necessary); remove contact lenses immediately if the affected person is wearing them. If possible, use isotonic eye wash solutions, such as saline solution (e.g. 0.9% NaCl solution). Avoid a strong jet of water due to the risk of corneal damage. It is recommended to consult an occupational health doctor or an ophthalmologist.
