SECTION 4: First aid measures**4.1. Description of first aid measures**

Take care of your own safety. If health problems occur or in case of doubt, consult a doctor and provide him with information from this safety data sheet.

If inhaled

Terminate the exposure immediately; move the affected person to fresh air. Observe. Seek medical advice if symptoms such as malaise, coughing or persistent irritation occur.

If on skin

Rinse skin with water or shower. Take off soiled clothes. Launder before reuse. Use barrier creams in the event of repeated or long-term skin contact.

If in eyes

Do not rub your eyes as this may cause additional eye damage due to mechanical action. Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. If possible, use isotonic eyewash liquids, physiological saline (e.g. 0.9% NaCl solution). Avoid strong water stream because of the risk of corneal damage. It is recommended to contact an occupational medicine doctor or an ophthalmologist.

If swallowed

Do NOT induce vomiting. Rinse out the mouth with clean water. In the event of issues, find medical help.

4.2. Most important symptoms and effects, both acute and delayed**If inhaled**
